8MG SEMAGLUTIDE MULTI-DOSE PEN

# SEMANIZE

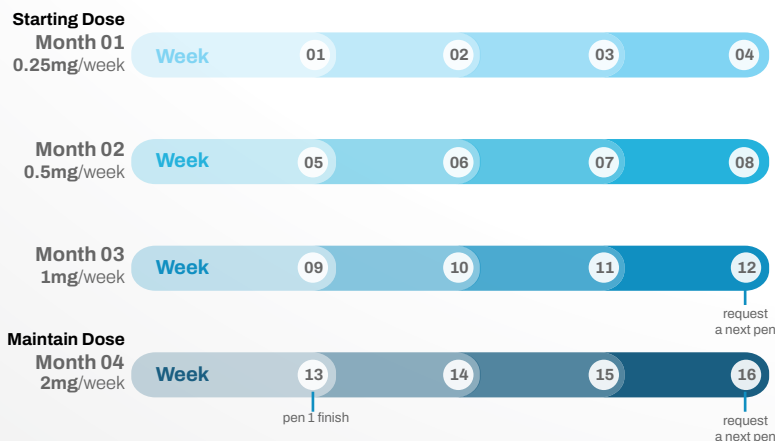

semaglutide multi-dose pen

8 mg

The SEMANIZE® 8 mg multi-dose pen offers the same premium-quality semaglutide in a larger capacity, providing an extended supply at a more affordable price. This easy-to-use, painless design ensures convenience while maintaining the highest industry standards for optimal weight management results.

## SEMANIZE® dosage schedule

# TIRZENIZE

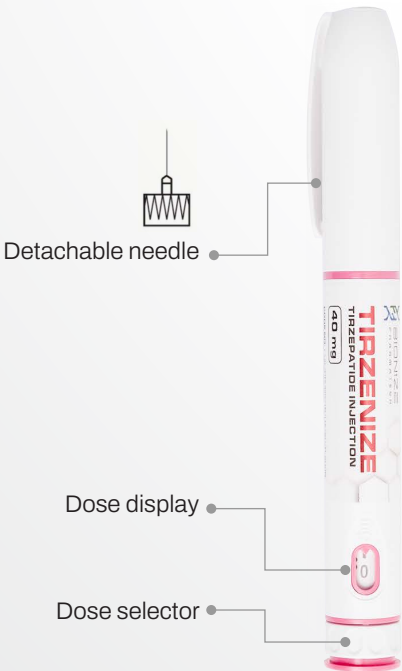

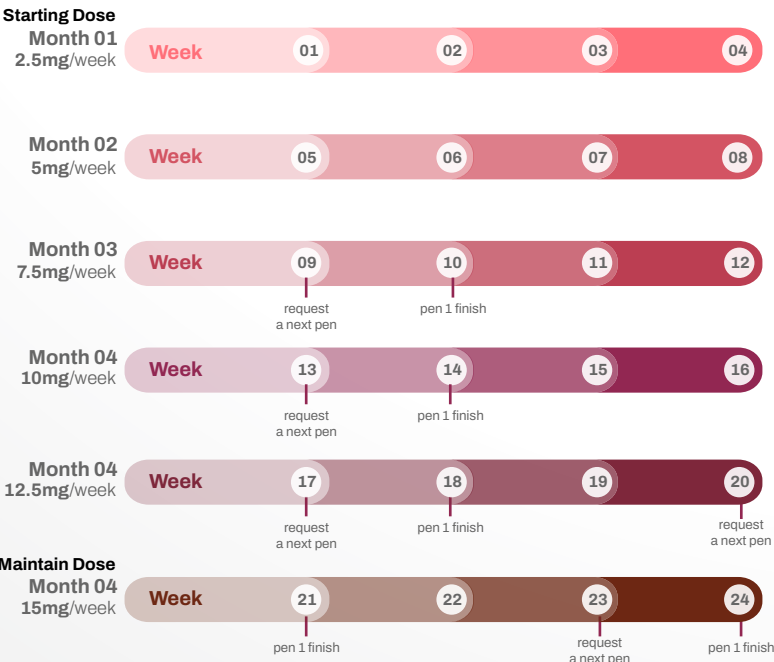

## TIRZEPATIDE INJECTION

40 mg

A groundbreaking 40mg multi-dose injection pen specifically designed for effective weight loss. This advanced pharmaceutical solution, utilizing the dual GLP-1 and GIP agonist tirzepatide, works by promoting insulin secretion and significantly enhancing insulin receptor sensitivity. These actions not only help regulate blood sugar but also powerfully suppress hunger, offering a high-quality, trusted, and effective pathway to achieve significant weight loss. TIRZENIZE is developed to be both affordable and widely available, making impactful weight management accessible.

# BIOTROPE

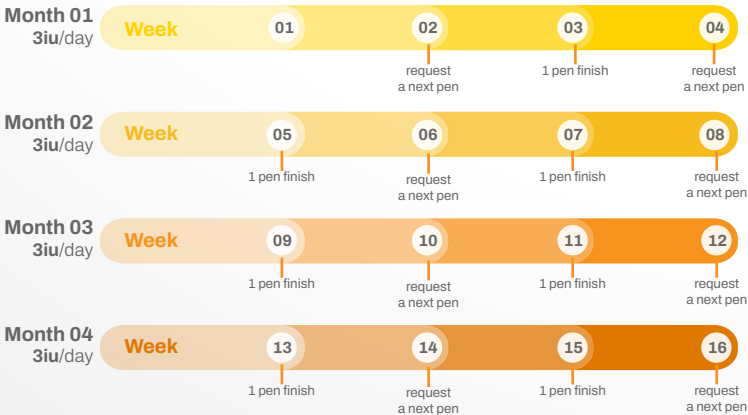

SOMATROPIN (r-HGH) INJECTION

48 IU / 16 mg

A premium multi-dose injection pen containing a somatropin-based formulation. As a natural human growth hormone (HGH), somatropin is recognized for its comprehensive benefits, including promoting a leaner physique, enhancing strength, alleviating mild depressive symptoms, normalizing digestion, improving sleep quality, and fostering a general sense of youthfulness and well-being. BIOTROPE offers a high-quality, trusted, and effective solution to support overall health and vitality, designed to be both affordable and widely available.
